- Light wind & high temps continue.
- Thanks to Colemill Enterprises, Incorporated.
- Home, Sweet Home! Bell 205 & Caribou.

Inside

- Calling All SOS Folks! Open "Old Heidelberg" Invitation
- Science Team Meeting Tonight!
- Thoughts for the day.

The Daily Plan-it

The SOS Field Study
Newsletter
Issue 27
July 15, 1999

A few last minute items from around the SOS world

Light, southerly winds.
Temps High.

Hot, humid with the chance of PM thunderstorms.

SOS Special Thanks to...

Colemill Enterprises, Inc.

A big SOS thanks to **William Ernest Colbert (Bill)** and **William Nelson Colbert (Bill Nelson)** for letting SOS use their pasture for the Cornelia Fort monitoring station. It was certainly the right place for the job and, if early results bear out, the measurements collected here will be of great scientific interest and value.

SOS Airforce Schedule

On Friday July 16th, the TVA **Bell 205** and the NOAA-ETL-sponsored **Caribou** will be returning home to Muscle Shoals, Alabama, and Detroit, Michigan, respectively. We bid them all a fond farewell and wish them a happy landing.

The **P-3**, which will be experiencing a "hard down day" tomorrow, is planning to fly research flights on Saturday and Monday. The Monday flight will be looking at "targets of opportunity" on its way back to

Tampa-St. Petersburg and MacGill AFB.

With barely concealed enthusiasm, Fred and Bill look forward to TEXAS 2000!

"Old Heidelberg" meets New Heidelbergers

Calling all SOS personnel—particularly those of German ancestry! On what may well be, for many of us, our last night together, we will be dining at the "**Old Heidelberg**"

Restaurant (423 Union Street, downtown) at (7:00 PM CDT, 503 ft MSL). This is particularly appropriate since we have several "new" Heidelbergers (?Heidelburghians?) amongst us.

Science Team Meeting Finale

The final 1999 SOS Field Study Science Team Meeting is tonight.

SOS T-shirts

See Bill soon for your **free** SOS T-shirt. All Bill needs are your name, e-mail address, and phone & FAX numbers. He or she who hesitates is lost.

Thoughts for the Day

"This 'telephone' has too many shortcomings to be seriously considered as a means of communication. The device is inherently of no value to us."

—Western Union Memo, 1876.

"It's 106 miles to Chicago, we've got a full tank of gas, half a pack of cigarettes, it's dark, and we're wearing sunglasses."

—The Blues Brothers.
